

Women are irrelevant to the free software community

Women are irrelevant to the free software community lr

Barely one percent of all commits to free software projects are done female contributors.

The KDE commit digest sex percentages are:

- 89 % Male
- 9.51 % (unknown)
- 1.34 % Female

* [KDE commit digest Issue 147 25th January 2009](#)

No wonder women find GNU/Linux so hard to use.
